

## Den Making

### BOX DENS

.Any old boxes will do and you don't need to do anything except maybe cut the occasional hole as instructed by your child. And it doesn't need to be inside either. Put the boxes out in the garden along with your blankets and sheets for some monster den building activities.

### BLANKET AND SHEET DENS

The options are limitless here. Given a selection of blankets, towels or sheets and left to their own devices they will happily play for hours, inside or outside. No instructions needed – just give them the stuff and they will do the rest!

### OUTDOOR DENS

Whether in the garden or in the woods and children can always find plenty of materials. You may need to supply rope or twine and supervision – just in case.
