

Homework linked to our topic Let's Explore!

| Maths | English | Topic |
|---|--|--|
| <p>Can you make a 2D or 3D hanging shape mobile? Make the shapes from card and find out about the properties of each shape you have made (8 corners, 6 faces)</p> <p>Draw a picture using 2D shapes. It could be a house, a dragon or anything you like. Your picture must include a square, circle, rectangle, triangle, pentagon, hexagon and octagon somewhere in your picture.</p> <p>Go to the supermarket or go to an online supermarket site with an adult. Look at the prices of different items. Make a shopping list of things which total either £1, £5 or £ 10. Choose your amount - challenge yourself!</p> | <p>Choose a story book that you like and read it with someone in your family. Try to make puppets from the story to retell the story. You can either bring your puppets into class to tell your story or if you are able, someone could film you telling your story to show to the class.</p> <p>Read your reading books to someone at home. Tell them what you thought of the book and if you liked it or not. How would you change the ending?</p> | <p>What can you find out about the village you live in? Are there shops, fields, playgrounds where you live? Make a poster all about your village with pictures and labels.</p> <p>Choose your favourite sea creature to find out about and either make a junk model of it or paint a picture. Can you tell me 3 interesting facts about it?</p> |

These are your homework activities for the next six weeks. Choose any of the tasks and complete one activity to bring in each Wednesday to share with your class.
