

School Development Plan

School Development Plan Summary 2018/19

The School Improvement and Development plan has been produced as a result of discussions with Governors and staff.

This year our targets are in the following areas:

- *Spelling*
- *Phonics*
- *To further challenge more able children*
- *To obtain the Artsmark*

Through these areas we aim to:

- *Continue to build the resilience, perseverance and independence of our children*
- *Improve spelling across the school by giving pupils strategies to apply to their written work*
- *Continue to develop and build upon good teaching across the school*
- *Give more opportunities for children to learn about the Arts*

Most importantly we will continue to ensure that ALL pupils make good progress, achieve to the best of their ability and have fun in the process! We believe that children develop best when they are in a safe, disciplined and happy environment enabling them to give fully attention to what they are learning.
